

# Sessions Only

Myers Portrait Gallery is adding a new level of pricing, making it more affordable for customers to have **quality photography** at a reasonable price. It's called "Sessions Only". Bill will photograph your session using the same care and expertise he always does. You can change clothing, be photographed indoors and/or outdoors. You can even be photographed on location. After the session, Bill will edit and color balance the images and supply you with a CD of the images and a release/ownership form. You can then have the images printed at a lab of your choice, at your expense. Your savings will be substantial since the studio is not involved in taking your order, cropping the images, preparing them for uploads, sorting and packaging when they return. You pick the lab, order your own prints, and pay them directly for the processing and shipping, period.

## Session Rates:

First Hour \$250. (Minimum 1 hr. \*)  
Additional 1/2 Hours \$50.  
Location \$75. (in addition to the hourly rate)

Session rates are due in full the day of the session. Images will be ready within 2 business days.

\* Some sessions may not take a complete hour, but the minimum still applies.

## The Particulars:

1. Available for H.S. Senior, Children, and Family photography.
2. MPG will photograph the session in Raw format.
3. MPG will edit , color balance images, convert to jpeg format and supply customer with a CD containing images.
4. MPG will supply customer with a copyright release form, assigning ownership of all images to the customer.
5. Customer may use any and all images to have prints made, using a lab of their choice.

### Please note:

Sessions Only must be selected **BEFORE** the session begins.

Some people may want or need facial retouching. Color labs offer retouching and other services at additional costs. If you prefer, Bill can retouch your favorite images before you send them to the lab for \$10. per head, per image.

It is your responsibility to choose your lab. Some due diligence and a simple web search using keywords "photo finishing labs amateur" will supply you with thousands of choices. MPG will not send orders to any lab.

MPG is not responsible for any finished product since you are choosing the lab you want to work with. Any quality control issues are between you and your lab. Our liability ends when you take possession of the images on the CD.
